Subject: Leak under kitchen sink, Unit 3

Hi Dale,

This morning I found water pooling in the cabinet under our kitchen sink at 48 Alder Court, Unit 3. It looks like it is coming from the pipe connection on the cold water side. I put a bucket under it and turned off the valve under the sink.

Can you send a plumber as soon as possible? Someone will be home all day today and tomorrow.

Thanks,
Priya Lindqvist-Rao
